
A EMAILS AND CALENDAR
Gmail, Calendar
Read-only
The user's inbox and calendar
Fetch
Gmail + Calendar APIs
New mail and events every 5 minutes
Clean up
Python
Strips quoted replies and signatures
Filter
Python rules
Skips bulk mail; sent mail is always kept
AI
Find tasks
Gemini 3.1 Flash-Lite
Tasks, promises and deadlines
Check
Python rules
Each item checked against the email
AI
Index
gemini-embedding-2
Searchable by meaning and keyword
AI
Summarize
Gemini 3.1 Flash-Lite
Only threads with 8 or more messages
B MEETING RECORDINGS
Recording
Uploaded
Audio or video of a meeting
Upload
Signed upload link
The same file is never processed twice
Get audio
ffmpeg
Keeps only the sound track
AI
Transcribe
Gemini 3.5 transcribe
Text, with speakers matched to attendees
AI
Find tasks
Gemini 3.8 Flash
Actions and decisions, using past meetings
Check
Python rules
Same checks as for email
AI
Index
gemini-embedding-2
Searchable transcript
saves
saves
C Database
PostgreSQL 17 + pgvector
Each user can see only their own data
Emails and events
Tasks, promises, deadlines
People
Meetings
Search index
Background jobs
looks up
D ANSWERING A QUESTION
Question
Web app
Typed by the user
AI
Understand
Rules, then Gemini
Works out who, what and when
AI is used only when the rules cannot tell
AI
Gather context
Python + PostgreSQL search
Only this user's data and connected accounts
Finds the people, projects and dates mentioned
Searches by meaning and by keyword
Follows related items, up to two steps away
The user's own edits win over AI guesses
Keeps only the most relevant pieces
AI
Write answer
Gemini Flash-Lite or Flash
Quick lookups use a smaller model, harder questions a stronger one
Says so when nothing relevant is found
Check answer
Python rules
Each fact must match its source
Unsupported facts are marked as guesses
Answer
Web app
Each fact links to its source
